

# eTurns TrackStock Manage

Mobile app for tracking usage of stockroom and truck inventory

eTurns TrackStock Manage automates inventory replenishment in stockrooms and trucks using phones, RFID or sensor bins. TrackStock Manage includes all the benefits of TrackStock Replenish, which is our mobile ordering app, plus the ability to track consumption and manage consignment.

## eTurns TrackStock offers 3 levels of automated replenishment

| TRACKSTOCK REPLENISH   | TRACKSTOCK MANAGE  | TRACKSTOCK OPTIMIZE   |
|--|--|---|
|  <p><i>Scan barcodes to reorder or count</i></p>  |  <p><i>Track usage. Know quantity on hand.</i></p>   |  <p><i>Optimize point-of-use inventories using analytics</i></p>  |
| <p><b>Mobile App (IOS, Android)</b></p> <p><b>Includes:</b></p> <ul style="list-style-type: none"> <li>• Unlimited users, items, suppliers</li> <li>• Simple reporting</li> <li>• Barcode label designer</li> <li>• QuickBooks integration</li> <li>• Certification: SOC II Type 2</li> <li>• Easily upgrade to TrackStock Manage or Optimize</li> </ul> <p><b>Benefits:</b></p> <ul style="list-style-type: none"> <li>→ 10x faster than e-commerce</li> <li>→ Decrease errors, stockouts, overstock</li> <li>→ 1 app to reorder from any supplier</li> <li>→ Reduce PO costs by up to 90%</li> </ul> | <p><b>Mobile App</b></p> <p><b>Includes everything in Replenish, plus:</b></p> <ul style="list-style-type: none"> <li>• Track usage, jobs, orders, receives and quantity on hand</li> <li>• Work order signature and image capture</li> <li>• Advanced reporting: customize and schedule 73 reports</li> <li>• Quick Lists, transfers, staging, serial #s, lot #/dates</li> <li>• Alerts Dashboard with analytics</li> </ul> <p><b>All the benefits of Replenish, plus:</b></p> <ul style="list-style-type: none"> <li>→ Real-time visibility of on-hand status</li> <li>→ Collect AR faster with job photos</li> <li>→ Use consigned inventory</li> <li>→ Be proactive with email alerts</li> </ul> | <p><b>Mobile App, RFID, SensorBins</b></p> <p><b>Includes everything in Manage, plus:</b></p> <ul style="list-style-type: none"> <li>• Min/Max Tuning Dashboard: calculates what each item's Min/Max should be based on recent usage, then quantifies cash savings and reduced carrying costs</li> <li>• Kitting</li> <li>• Requisitions</li> <li>• Project spend limits</li> <li>• Tool crib management</li> <li>• Asset maintenance tracking</li> </ul> <p><b>All the benefits of Manage, plus:</b></p> <ul style="list-style-type: none"> <li>→ Reduce inventory and costs up to 73%</li> <li>→ Analytics show potential cash savings</li> </ul> |

## Manage inventories to reduce stockouts

Scan items as they are used. The app records the usage and continually compares the quantity on hand with the minimum, and triggers an automated order up to the maximum.

## Track consigned or customer-owned inventory with ease

TrackStock Manage works for consigned or customer-owned inventories. Managing consigned inventory is easy with eTurns because we capture all usage transactions, allow the distributor to invoice accurately, and provide one set of books for reconciliation for the end-user and distributor.

## Manage inventory on service trucks

Create work orders, snap a photo of the beginning and end of the work, and get a signature. Manage parts from any supplier from our supplier-independent app.

## Reduce procurement by 90%

eTurns sends automated orders when replenishment is triggered, preventing the need to type and fax POs. Plus, the same order that is automatically sent to the supplier for replenishment becomes an import template for the end user's accounting department to import into their business system, eliminating all data entry. QuickBook integration is included.

## Manage serial and lot numbers, and expiration dates

Manage serial number inventory. Receive email notification before lot numbers and expiration dates expire.

## Get email alerts on 73 customizable reports, such as:

- Reports to order approvers that include the list of items being ordered that need to be approved. Approve/reject button included in the email.
- Reports about current orders to suppliers
- Reports about item usage and inventory turns
- Reports on expiring items

### Free 30-Day Trial. Very simple setup.

- Fill out our form with: list of items, name and address of stockroom
- We'll set things up and send barcode labels
- Download the app from Apple or Google Play
- Scan to order, count, use or receive
- Enjoy our free 30-day trial with training and support

## Testimonials

eTurns is the proven leader in automated replenishment of stockrooms and trucks. We have more than 1,700 customers, including: Anixter, Graybar, Gexpro, Rexel, Tesla, SpaceX, Cisco, Intel, Rolls Royce, Shell, Northrop Grumman, General Atomics, Siemens, University of California at Davis, Ambulnz, Smilebuilderz, FastMD and others.

"eTurns has live capture of parts usage, unlike our JD Edwards ERP. With eTurns on our 75 service trucks, we decreased line items from 315 to 170 and inventory from \$20k to \$14k on each truck. eTurns helped bring our carrying costs from \$1.6M to \$875K, for a savings of \$725,000 a year. We reduced our 8 people in procurement to 3 and redeployed those people to dispatch and customer service."

—Carlos Echazabal, Sr. Director of Operations, Service America

"If the customer didn't have eTurns, we could not control the consigned inventory at the customer's location. eTurns provides a great way to record the parts the customer used so we can bill them. Without it, we would have a lot more confusion and negotiations with customers."

—Ignacio Valdes, Supply Chain Manager, Anixter

"We were using a manual process... The value of our inventory on hand was north of \$75,000 when we started using eTurns; now we have around \$20,000 sitting on the shelves. The drain on my time has been significantly reduced and continues to improve."

—Brian Galowitz, Manager, Lakes Region EMS
